- Agile/Scrum Methodologies
- Github/GIT/JIRA
- MS Office/Google Workspace

//PROFESSIONAL

- Stakeholder Management
- Project Management
- Teamwork
- Problem-Solving
- Communication
- Documentation

PROFESSIONAL EXPERIENCE

Market Operations Analyst II

Electric Reliability Council of Texas (ERCOT) Austin, TX

January 2024 – Present

- Developed a scalable Python-based analytics tool to support file processing, statistical analysis, and risk evaluation; full test suite and graphical user interface ensured dependability and practicality.
- Automated 15+ recurring monitoring workflows, reducing manual intervention by 50% and increasing consistency and timeliness of compliance reporting.
- Engineered and maintained four Python libraries to streamline access to complex functionality, including database integration, log file parsing, and file system navigation.
- Designed and delivered 10+ dynamic Power BI dashboards to visualize performance KPIs, risk scores, and compliance metrics for senior stakeholders, enabling real-time, data-driven decision-making.

Business Analyst

Proximity Learning Austin, TX

July 2022 – October 2023

- Crafted and presented Power BI dashboards that integrated data from Snowflake and HubSpot, enabling KPI analysis across Product, Sales, and Marketing teams; applied linear regression models to forecast performance trends.
- Led a cross-functional Scrum team of 12+ software developers, overseeing the successful delivery of 30 Agile sprints with fully tested, on-time, and on-budget product features.
- Initiated Python-based auditing procedures that automated payroll validation checks, resulting in a 30% reduction in payroll processing errors and improved financial accuracy.

Business Process Specialist

Itron, Inc. Austin, TX

July 2019 – June 2022

- Built and maintained 20+ interactive Power BI dashboards, leveraging complex SQL queries to visualize custom KPIs and drive strategic insights; regularly presented findings to Directors and Vice Presidents.
- Designed and deployed a Microsoft PowerApp to streamline the management of 200+ programs across both Agile and Waterfall lifecycles, resulting in a 30% increase in PMO operational efficiency.
- Authored detailed SQL and process documentation, including system architecture diagrams, end-user manuals, and operational workflows to support data governance and knowledge transfer.
