SKILLS

// Programming/Frameworks

- Python (6+ years)
- Go / JavaScript / Bash
- FastAPI / Streamlit

// Cloud Operations

- Azure / AWS

// Data Engineering

- Databricks / Spark
- Airflow
- Oracle SQL / PostgreSQL
- dbt (Data Build Tool)

// Analytics/Visualization

- Power BI
- Power Query

// Software Engineering

- Claude (Skills / MCP Servers)
- Docker / CI/CD
- Agile / Scrum
- GitHub / GitHub / Git / JIRA
- MS Office / Google Workspace

PROFESSIONAL

- Stakeholder Management
- Project Management
- Teamwork
- Problem-Solving
- Communication
- Documentation

PROFESSIONAL EXPERIENCE

Senior Systems Analyst

Electric Reliability Council of Texas (ERCOT) Austin, TX

November 2025 – Present

- Built and manage a FinOps platform centralizing \$2M in annual cloud spend across 70 subscriptions and 150 products for 50+ executives and asset owners, with recency-weighted regression forecasting, anomaly detection, and a Genie space for natural-language self-serve queries.
- Engineer a reusable Airflow → Databricks → Power BI pattern across the Market Operations, Cybersecurity, and FinOps domains: Python DAGs ingest each team's source APIs into a governed Databricks medallion architecture and executive dashboards.
- Coordinate IT releases across environments for 3 teams, handling deployments, monthly patching, site failovers, and emergency fix deployments.
- Contribute to ERCOT's enterprise MCP server rollout (ServiceNow, JIRA, SharePoint, qTest), build Skill libraries, and lead the internal Python community.

Market Operations Analyst II

Electric Reliability Council of Texas (ERCOT) Austin, TX

January 2024 – October 2025

- Programmed a production Python application, in daily use by the 10-person CRR team, that launches test suites, complex data analyses, and automations, saving the team roughly 20 hours weekly.
- Developed production Go command-line tools, used across teams, to automate and schedule SQL execution.
- Taught multiple Python, Databricks, and Power BI sessions, presenting to 100+ colleagues.

Business Analyst

Proximity Learning Austin, TX

July 2022 – October 2023

- Built Power BI dashboards integrating Snowflake and HubSpot for KPI analysis across Sales and Marketing.
- Led a cross-functional team of 12+ developers across 30 Agile sprints, delivering fully tested features on-time.

Business Process Specialist

Itron, Inc. Austin, TX

July 2019 – June 2022

- Created Power BI dashboards for PMO directors tracking on-time, on-budget, and hardware-cost metrics across fast-moving R&D projects; integrating data from Oracle, Project Online, and Excel into a single portfolio view.
- Built a PowerApp managing 200+ programs across Agile and Waterfall lifecycles, driving a 30% gain in PMO operational efficiency.

EDUCATION

Master of Business Administration

University of New Mexico - Albuquerque, NM

Bachelor of Science, Business Administration

University of Vermont - Burlington, VT

Certified ScrumMaster (CSM)

Scrum Alliance - Issued 2022

Project Management Professional (PMP)

Project Management Institute - Issued 2021
